

SUPERLITE PLUS

COTTON PROTECTIVE GLOVE WITH NITRIL COATING, FOR GENERAL HANDLING (T4700)

Description

Length: 25 cm. Thickness: 0,7 / 0,9 mm. Nitrile glove on cotton interlock base Fully dipped Knitted wrist. Benefit: Its nitrile formula has been selected to give the glove greater elasticity and unrivalled dexterity. The cotton interlock lining strengthens the glove's mechanical performance while absorbing hand perspiration for added comfort. Ribbed at the cuff, good wrist support is provided, thus eliminating risks of getting caught. Resistance: The nitrile coating ensures good chemical properties and outstanding mechanical properties (abrasion). The combined base and coating give the glove excellent abrasion resistance. It is particularly suitable for the handling of oils, greases and hydrocarbon by-products. Application: Handlings of greasy and abrasive parts.

Product details

Brand

- Honeywell

Material

- Cotton

Material coating

- Nitrile

Packaging

- 12 pairs/pack

- 12 packs/case

Properties

- Fully coated

Certification

- EN 420

- EN 388

Certification performance level

- EN 388 - abrasion resistance: 3

- EN 388 - cutting resistance: 1

- EN 388 - tear resistance: 1

- EN 388 - puncture resistance: 1
