

1SNA ARBORIST

CHAINSAW TROUSERS, CLASS 1 TYPE A

Description

The Arborist chainsaw trousers combine the key features of the Progress range with several particularities adapted to the needs of arborists: integrated gaiters with a lace hook to fix them and ventilation zippers that don't get in your way when wearing a safety harness. What's more, we were able to reduce the weight by using Dyneema® fibres for the protective lining. The very hard wearing Armortex® Light (containing Kevlar®) knee reinforcements assure an extremely high abrasion and tear resistance.

Product details

Model

- Trousers

Brand

- SIP Protection

Fabric

- Full stretch Armortex light reinforcements (30,7% para-aramid - 60,6% polyamide - 6,5% elasthane - 2,2% polyurethane ±340g/m2)
