

JUNIOR A

PAPR HOOD TH1 (A114106)

Description

JUNIOR A VL is part of the Honeywell light duty airhoods range designed for use with powered air purifying respirator (PAPR) as PA700 series. This model is fully transparent and it can be equipped with a cape for increase protection. It is recommended in working area where protection is required for respiratory organs, face and head against harmful particles, mists, gasses and vapours. This system procures air to the user via the supply hose connected between PAPR (equipped with filters) and the hood. The filtered airflow enters at the rear and flows through the airduct and leaves the hood via the face collar
