

PRIMAIR VL

AIR HOOD (SEMI-REUSABLE)

Description

The air hood is made with lightweight material. Its design prevents fogging and the air flows down the face therefore does not affect eyes. This semi-reusable air hood can be used in combination with the breathing apparatus PA701EU, breathing tube PA031 and dust filter PA7P.

Product details

Airhood type

- Hood for motor unit

Brand

- Honeywell

Industry airhood

- Chemicals

Properties airhood

- Cape: PE (polyethylene) coated Tyvek®

Visor material

- Polyethylene terephthalate glycol

Certification

- EN 12941

Honeywell

Sizes

UNI
