

1SBD CANOPY AIR-GO

CHAINSAW TROUSERS, CLASS 1 TYPE A

Description

We merged our popular Forest W-AIR and Canopy W-AIR into the new Canopy AIR-GO trousers. These chainsaw trousers are especially designed for tree climbers. The Canopy AIR-GO's name refers to its 5 large ventilation areas: on the back of the leg, the crotch, and on the integrated gaiters. Let the AIR go! The trousers' new blocking material has a surprising 4 layers, is stretchable on itself, and is combined not only with a stretch outer fabric but also a stretch lining. All features combined make this Canopy AIR-GO the perfect match for everyone who is looking for extremely ventilated, comfortable, stretchy and lightweight trousers.

Product details
