

1SSR TRACKER

OUTDOOR RIPSTOP TROUSERS

Description

Better experience the action wearing the Tracker trousers! They are perfect for all sorts of activities when not handling the chainsaw such as making your way through thorns in the forest or as very heavy duty working trousers. Just not your regular ones... Although the Tracker is not a pair of rain trousers like the Keiu, the full ripstop and waterproof Tektor reinforcements on the lower legs will keep you dry and comfortable when walking through wet grass. The trousers also have an extremely high wear and tear resistance. The ventilation zippers at the back of the legs allow an air flow when needed and a perfect fitting is assured thanks to a wide variety of available sizes and leg lengths.

Product details
