

# 1SAL SAMOURAI HV

## CHAINSAW TROUSERS, EN ISO 11393 CLASS 1 TYPE A, EN ISO 20471 CLASS 2

### Description

*Strong. Stronger... Samurai! The Samurai HV trousers combine high visibility in accordance with EN ISO 20471 class 2 with the specific characteristics of the standard Samurai trousers - hardwearing. Heavy vegetation of any kind, even high bramble bush, are no match for the Tektor reinforcements. Working along or in the vicinity of a road is no longer an issue with these HV trousers. What's more, the trousers have been completely redeveloped to be as comfortable to wear as possible and are available in 3 different leg lengths Short, Regular and Tall. All this to assure you focussing on your work instead of on the environment in which you're working.*

### Product details
